

What does this Guest Wireless Authentication QRC cover?

This QRC shows a guest how to create login credentials for Micron’s guest network (*muguest*). For additional resources, hosts can visit the Micron Guest Network SharePoint site by entering the alias **guestnetwork** into their web browser’s address bar.

1. Locate and select the *muguest* Wi-Fi network from any non-Micron managed device.

2. Select the “*Don’t have an account*” link.

Sign on with the credentials provided following self-registration.

THE MICRON GUEST NETWORK DOES NOT PROVIDE ANY SECURITY PROTECTION FOR CONNECTED USER DEVICES. BY ACCESSING THE MICRON GUEST NETWORK, YOU AGREE TO THE FOLLOWING TERMS AND CONDITIONS. IF YOU DO NOT AGREE TO THE FOLLOWING TERMS AND CONDITIONS, THEN DO NOT ACCESS OR USE THE MICRON GUEST NETWORK.

1. Micron may monitor and record network activity and anyone accessing or using the Micron Guest Network expressly consents to such monitoring and recording. The use of the network should not be considered private. If Micron detects inappropriate use it may be reported to Micron management, the user's employer or associates and/or law enforcement agencies.
2. The Micron Guest Network is provided strictly as a convenience to authorized users. Access and use is not guaranteed and may be terminated at any time without notice in Micron's sole discretion.

3. Update all of the required fields with your appropriate information, and then select **Register**.

Provide us with some information so we can create an account for you.

You MUST provide a valid email address. This is the only method by which you will receive login credentials following approved registration.

Registration form with red arrows pointing to the following fields:

- Username*
- First name*
- Last name*
- Email address*
- Location* (Dropdown menu showing "US - Mountain")
- Micron sponsor being visited(email)*

Buttons: Register (highlighted with a red box), Cancel

*You will receive the following message after you select **Register***

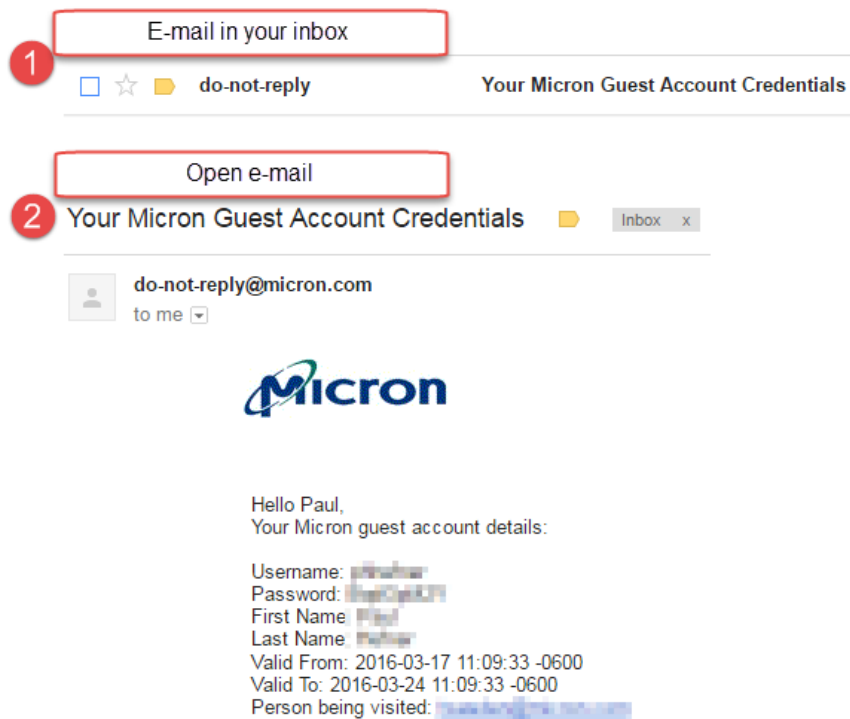

Account Created

You will receive login credentials via the email address you provided during registration following sponsor approval.

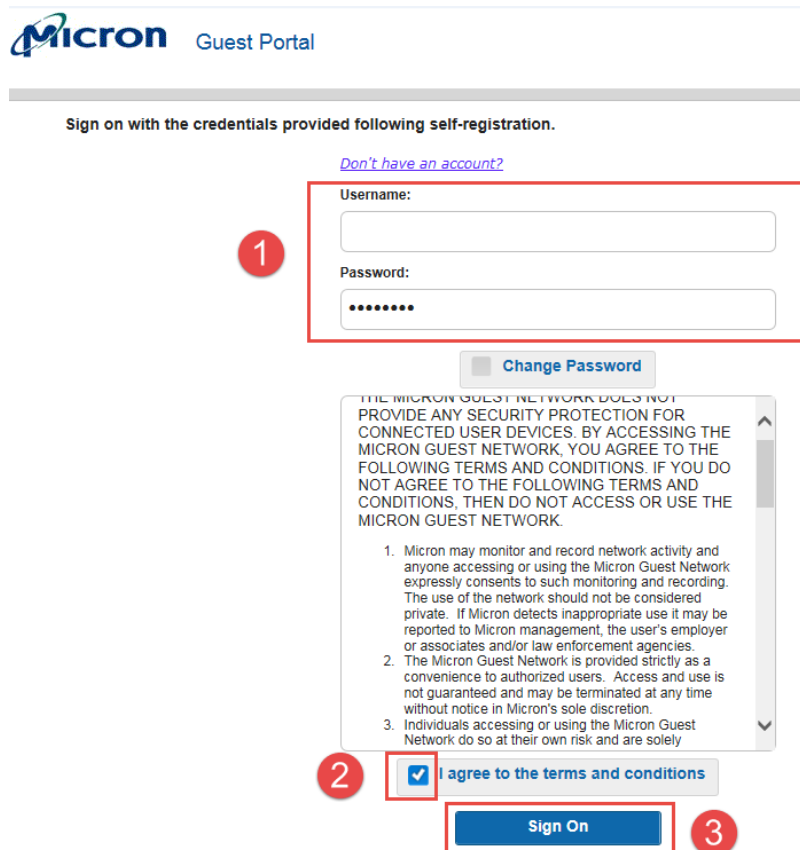

First name: First
Last name: Helmer
Email: paulhelmer@gmail.com
Micron sponsor being visited (email): paulhelmer@micron.com

Sign On

4. Once your host has approved your request, you will receive an e-mail message with your login credentials. **Note:** If you do NOT have access to your e-mail, ask your host to provide you with your login credentials.

5. Enter your newly created login credentials, select the check box next to **I agree to the terms and conditions**, and then select **Sign On**.

6. Select **Continue To Network** to access the Internet, or simply type a URL into the address bar of a web browser.

Success

You now have Internet access through the Micron guest network.
By default, you may authenticate with up to 3 unique devices for a max duration of 7 days.
